Dear Sugar Creek Parents,

McLean County Unit District No. 5 has an Integrated Pest Management Policy which incorporates maintenance, sanitation, physical barriers, and as a last resort, the most safe, effective means of pesticide. We are planning on doing a spraying in the building during our holiday break while no students, or staff is around. The spraying will be done by a licensed professional contracted through the district. We assure you that no harmful chemicals will be used. This note is simply a notice that an application is being done in the school building.

If you have any questions or concerns, please contact me.
Thank you.

Scott Peters
Principal
