Monthly fun fact: What is a Peanut Gallery? And why am I allergic to it? And what is this rash on my skin? Where did these hives come from?

From UrbanDictionary: The term originated back in the theatre, where the cheapest seats were those way at the bottom floor and where people purchased peanuts because they were the cheapest seats. Or, a group of people who criticize someone.

Mia Lau quote of the month: “That doesn't make any sense!!!!!!”

Example: Killian and Crispy.

That's where the bumps came from.

The theatre year-end banquet will be on Sunday, May 15th at 12:30. All members and their families are invited to attend. Due-paying members will receive a mock award and watch the senior spotlight video.

Immediately following the conclusion of the banquet, there will be underground shows, written and directed by Megan Parent and Avrielle Jorolan.
