

Classroom Behavior Program

The following will outline the general procedures for the classroom behavior program. Each student participates in a 35 to 40 minute lesson. During the lesson time each student has a set of individualized rules he/she must follow. The following are your child's rules:

1. _____
2. _____
3. _____

If your child breaks one of their rules the student receives a warning with a reminder of the rule. Each student is given at least 2 warnings. After the second warning the student is given a stop. The student then goes to a calming area for the remainder of the lesson. After a short period of time the student then returns to the group and finishes the work he/she missed. If the student receives 2 or less warnings the student is given a short 5 to 7 minute freetime. The student may choose a favorite activity or food/drink item.

If you have any questions or concerns please contact Mrs. Rennels.
