CONSULTATION SERVICES

ELDERCARE SERVICES

A licensed nurse can conduct an in home assessment of an aging parent to evaluate their ability to live independently. Areas assessed include nutrition, mobility, health, & safety. A written report will be prepared identifying areas of concern and available community resources.

IDENTITY THEFT

If you suspect that you are a victim of identity theft, a case manager will be assigned to review your credit report, issue fraud alerts on your behalf, directly contact creditors to begin the dispute process, and work with the credit bureaus to restore your credit rating.

LEGAL CONSULTATION

A 30 minute telephonic consultation with an attorney or paralegal is available to answer your legal questions on a variety of non-work related topics including:

- Divorce
- Child custody
- Criminal law
- Power of attorney
- Will and estate planning

CREDIT COUNSELING

The EAP offers consultation on a variety of financial issues, including:

- Budgeting
- Debt management
- Improving your credit score

No one is immune to personal concerns, and when left unaddressed, they can impact your work performance or your emotional well-being. The Employee Assistance Program (EAP) is designed to help you resolve personal issues before they become more serious and difficult to manage. You and your dependent family members can receive short term, professional counseling to address a wide variety of concerns. The EAP also provides access to information and resources that can help you answer virtually any personal question or concern.
