

How Are We Prioritizing Health While Getting Materials &/or Returning Items?

Geothermal/HVAC construction has significant portions of the building closed including the main entrance, guidance office, music hall, IMC, cafeteria and most of the main hall. *(If you're thinking...can we add anything more to the plate....we're with you! But, come August, we'll be happy to have a more energy efficient and reliable heating and cooling for our Cavs! #silverlinings)*

To maximize social distancing and wellness of all, using Illinois State Board of Education guidance, we are adhering to the following guidelines.

- Facemasks will not be provided but per ISBE, are required. Hand sanitizer and wipes will be available.
- One student or family member may enter the building to obtain materials. If 1:1 assistance is required then please respect the one student with one adult limit. A parent/family member may enter the building on a student's behalf.
- Students will enter through four different doors depending on locker location.
- Teams are staggered by day and time (see below) with multiple days for each team.
- Times have been established for different student groups to enter through different doors.

When Can Students Pick Up & Drop Off Materials? Look for your student's team by last name.

No transportation? A-M email [Mr. Larson](#) & L-Z email [Mr. Hill](#)
